

SERVICES OVERVIEW

Helping You Meet Your Business Goals with IT

PlanetMagpie provides **comprehensive IT consulting services** to clients in the **San Francisco Bay Area, California and the US**. We operate in four Divisions, which means you can partner with a single provider for all your IT needs.

Our **IT Consulting Division** specializes in architecting new networks, and installing / supporting popular Microsoft products. Whether your company wants to migrate to Exchange 2013, or wants to protect systems from disaster, PlanetMagpie provides the expertise needed for your essential IT systems.

Our **Network Support Division** handles day-to-day maintenance and troubleshooting of your network, and provides helpdesk support for your users either onsite or remotely. It's a cost-effective alternative or supplement to your in-house IT support.

Our **Web Development Division** offers award-winning web design and a full range of web development options including CMS and ecommerce. Search engine optimization, email marketing, and social media consulting services ensure that your site gets visitors. Leverage the Web to beat your competition.

PlanetMagpie's **Cloud Hosting Division** delivers secure hosting with 99.9% uptime on the industry's highest-quality servers. Host file servers, websites, email, databases, web applications, or Lync telecom with us, and your systems will perform at their optimum level. With nightly backups.

WHAT SETS PLANETMAGPIE APART FROM OTHER IT FIRMS

- » A Microsoft Gold Certified Partner with over 10 solution competencies—only 5% of Microsoft partners attain even a single certification
- » We're on the forefront of rolling out new Microsoft technologies to Bay Area businesses, including Exchange 2013, Data Protection Manager 2012, Small Business Server 2011, Lync Server 2013, SharePoint 2013, SQL Server 2012, and Forefront Endpoint Protection
- » 15 trusted hardware & software partners round out our end-to-end IT solutions
- » Highly trained Network Support engineers focus on preventative maintenance, helping you avoid costly emergency repair
- » Certified in Web Development by Sitefinity CMS (Platinum), Microsoft (Silver), & Miva Merchant (Silver)
- » Recipient of 7 WebAwards for outstanding client websites (WebAward.org) from 2009 to present
