## SERVICES OVERVIEW

### Unleashing the Power of IT

PlanetMagpie provides IT consulting services to small, mid-market, and enterprise businesses across the United States. Our services encompass all four pillars of business IT, allowing you to partner with a single provider for all of your IT needs.

#### The Four Pillars of IT

**IT Consulting:** From upgrading and securing corporate networks to installing the latest Microsoft solutions, our IT Consultants are the big dogs. Specializing in Microsoft-centric environments, we deploy Skype for Business, Office 365, Exchange Server, Windows Server, and a full range of IT solutions for our customers.

**IT Support:** With a custom IT support plan for each customer, our IT Support team proactively handles network maintenance and onsite/remote helpdesk support for your end users. With a focus on maximum uptime, PlanetMagpie IT Support is a cost-effective and highly-trained alternative or supplement to in-house IT staff.

**Web Development:** Our award-winning team will design your one-of-a-kind website and then help promote it online so you can reach and convert your target audience. Our development options include Sitefinity CMS, three ecommerce platforms, and custom application development. If you can dream it, we can build it.

**Cloud Services:** We deliver private cloud services on the industry's highest-quality servers and network equipment, running out of datacenters in Silicon Valley and Dallas / Fort Worth. Host your Microsoft solutions on our private clouds, including Skype for Business and Exchange Server. Run Web applications and host websites, cloud backups, and file shares.

#### What Sets PlanetMagpie Apart from Other IT Consulting Agencies?

- **Microsoft Experts.** We have been a Microsoft Gold Partner for more than 10 years. Our team is certified in over 10 Microsoft solutions. Only 5% of Microsoft partners attain even a single certification.
- **We eat our own dog food.** Each IT solution we sell is first rolled out at PlanetMagpie and tested by our staff under day-to-day working conditions. If it's worthy, we'll offer it to you.
- **Datacenter Experts.** We have managed our own datacenters since 1998. We know datacenter operations and security threats inside and out.
- **Award-Winning Web Design.** Our Web Development team has won more than 11 WebAwards for customer websites and is certified in Web Development by Sitefinity, Microsoft, and Miva Ecommerce.
- **Made in America.** We are dedicated to re-developing the U.S. IT workforce and buying American-made IT products whenever possible. By hiring PlanetMagpie, you are investing in America.
