

At the heart of great teams is great communication

Connect your teams with the experience they love, in the Office applications they use every day. With Skype for Business you can simplify your infrastructure with one platform for calling, conferencing, video, and sharing. Replace your telephone system with Skype4B and gain a whole new suite of collaboration services.

Skype for Business Server Features

- 

Instant messaging with internal and external users (and conversation history)
 Multi-level authentication and encryption of conversations
 Online Presence Awareness (i.e., available, busy, in meeting, on phone)
- 

Conference with up to 250 people—even if they're not on Skype for Business
 Professional collaboration and meetings integrated with Microsoft Office
 Find anyone in your company and schedule meetings in Outlook
- 

Multi-party HD video conferencing
 Host online audio/video conferencing, even with non-Skype users
 Join audio/video meetings on your favorite devices—even mobile!
- 

Make calls with a click of a button, either on Skype or via phone
 See who is online, and transfer calls in 2 clicks
 Voicemails recorded and sent to Outlook mailboxes
- 

Share your screen, application or entire desktop with a colleague
 Take remote control of desktop for technical support
 Skype for Business Applications for the desktop, mobile, & web

Advantages of Using Skype for Business / Microsoft Teams

- Choose the Skype for Business install option that best suits your business—On-Premise, Office 365, Hybrid Cloud, or a PlanetMagpie Private Cloud
- Host your own conferences, instead of paying for a third-party service
- Make calls from your work number, no matter where you are
- Unlimited calls (even to overseas offices), including calls to consumer Skype users
- Built-in encryption, for protecting all users' communications
- Use a Skype-optimized desk phone, headset, or make calls through your PC/laptop/mobile
- Start a conference call in the office, and then transfer it to your mobile
- Meeting participants only need a phone or Internet connection to join conference
- "Virtual Lobby" for meeting presenters, allowing them to manage attendees

PlanetMagpie is a Certified Partner for
